

OUR HEIFERS

35 APR Registered Langi Kal Kal First Calf PTIC Heifers

Artificially Inseminated to Murdeduke Kicking K428 and backed up by two grandsons of the highly acclaimed Langi Kal Kal Conveyor F228. Expected calving dates between March 9th & May 6th.

Langi Kal Kal Angus cattle are highly regarded for their temperament, structure, fertility along with calving ease. They generate intense interest at the Ballarat Feature Female sale annually, with leading producers travelling from all over Victoria and eastern South Australia to purchase these elite females.

Our herd is rich in Innesdale and Lawson bloodlines with stud sire links to Te Mania Emperor, Merridale Gem, Millah Murrah Kingdom, Deer Valley All In and SAV Thunderbird. These Heifers have been grazed on the rolling hills of Trawalla since August 2019 to ensure that appropriate condition is maintained.

Animal Husbandry treatments include: Eprinex pour-on drench, Trifecta drench, Piliguard and Ultravac 7in1 vaccination with boosters.

Inspection welcome by appointment only.
